# Welcome

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

## About Conference

Building on the success of its previous four editions, the **5<sup>th</sup> International Conference on Neurology and Mental Disorders** will be held on **April 19-20, 2027** in **Paris, France**. Under the theme, “**Redefining Neurology and Mental Health in the Era of Artificial Intelligence and Clinical Innovation**,” the conference will bring together neurologists, psychiatrists, neuroscientists, mental health professionals, researchers, clinicians, academicians, and industry experts from across the globe. The program will highlight emerging discoveries, advanced technologies, and evidence-based approaches that are transforming the diagnosis, treatment, and management of neurological and mental health disorders. Neurology 2027 will provide a platform for scientific exchange, interdisciplinary collaboration, and professional networking, with a focus on artificial intelligence, digital health, precision medicine, and clinical innovation. Participants will share research findings, discuss current challenges, and explore future directions in neuroscience and mental healthcare. We look forward to welcoming participants to Bangkok for two days of learning, collaboration, and innovation. ([click here for more](#))

# Conference Schedule

## Day 1 - April 19, 2027 (Monday)

08:55-09:00	-	Registration
