

3rd International Webinar on **Neurology and Mental Disorders**

Theme: Advancement and new findings in Neurology, Mental Disorders and Psychiatry

Date

May 29-30, 2025

Time Zone

GMT+4

SCAN ME

Welcome

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

About Webinar

Neurology 2025 provides a virtual dais to enhance accessibility to our international event, also paves the way to build an effective online community of the people who are all in the field of Neurology. The webinar presentations will feature contributions from distinguished figures in academia, business, associations, societies, university professors, collaborators, leading scientists, specialists, and exhibitors. The virtual meeting will include participation from keynote speakers, plenary speakers, young researchers, and delegates.

The innovations of their research attributes in the fields of neurology, neuroscience, brain disorders, psychiatry, neuromuscular disease, computational neurology and robotics, neuro-oncology, pediatric neurology, and geriatric neurological disorder are expressed by contributors from different countries with varying designations. Oral presentations, posters, e-posters, student presentations (YRF), exhibitor and workshop participation, and group presentations are among the opportunities. ([click here for more](#))

DAY 01: MAY 29, 2025

INTRODUCTION: 09:45 - 10:00

	Jessie Dominguez , The SpineCal Institute, USA
18:40 - 19:00	Title: Ayahuasca-induced serotonin syndrome: About a case
	Laura Isabella Ortega M , University Foundation of Health Sciences, Colombia

Day 2 Concludes

***Note: You are requested to be present at the event right from the introductory session as there might be some changes in the event schedule and so the presentation timings may vary. In that scenario, your presentation slot may get preponed or postponed by a fair deal of time (in rare cases) to ensure a smooth running passage of the program without any delay. So, we request you to please be prepared to present your work whenever your turn comes up. Your understanding in this regard is very much appreciated.**
