

4th International Webinar on **Neurology and Mental Disorders**

Theme: Aspiring toward the future of brain and nerve science through innovations in clinical care and mental health

Date
May 28-29, 2026

Time Zone
GMT+8

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

About Webinar

The 4th **International Webinar on Neurology and Mental Disorders** scheduled on **May 28-29, 2026** offers a global virtual platform designed to foster collaboration, share emerging research, and build an engaged online community within the field of neurology and mental health. This digital forum ensures broad accessibility while maintaining the scientific rigor and professional integrity expected of an international event.

This two-day virtual meeting will feature insightful presentations from esteemed professionals across academia, healthcare institutions, research organizations, associations, and industry. Participants will include oral presentations, posters, e-posters, student presentations (YRF), exhibitor and workshop participation, and group presentations. ([click here for more](#))

4th International Webinar on Neurology and Mental Disorders

May 28-29, 2026 | GMT +8
